Petition to the Federal Minister of Industry

We, the undersigned residents of the community of Cranston (Calgary-Shepard riding) in Calgary, Alberta draw the attention of Industry Canada to the following:

THAT,

Rogers Communications Inc. plans to build a 30m high cell phone tower (monopole) in the heart of our community at 433 Cranberry Park SE (condominium plan 121 2795). There are a variety of concerns about the erection of this tower in this particular location and Rogers has failed to disclose or propose more viable options to the community.

THEREFORE,

We request that Industry Canada deny any proposals or appeals in relation to this tower as proposed in this location.
